## WORK EXPERIENCE

**ServiceNow Innovato, Lagos** - *Front-end web Developer*

*Aug 2024 - Nov2024*

### [Rentwise Rentals](#)

- Spearheaded the development of RentWise, a comprehensive real estate platform.
- Solely managed frontend architecture decisions and implementation
- Led technical interviews for backend developer positions, demonstrating broad technical knowledge
- Architected and developed a complete property management system with user authentication
- Integrated multiple APIs including Google Maps, Virtual 360 Tour, and Google Earth
- Designed and developed responsive UI/UX for optimal user experience.

**Developed during my web development course at Wave Academy, Lagos**

*Feb 2024 - Apr2024*

### [Conversion App](#)

### [Resturant-homepage](#)

- Created a web-based application that calculates goods prices in Naira based on user inputs such as dollar rate, freight costs, and clearing fees. The tool enhances pricing accuracy and efficiency for businesses.

- The application has been widely adopted in the business space, contributing to improved financial decision-making.
- Due to fluctuations in the dollar exchange rate, this application significantly reduces manual calculation time by approximately 80%, enhancing efficiency and accuracy in pricing decisions.
- Implemented features like dynamic input validation and real-time calculations to improve user experience using javascript, HTML 5 and CSS3.
- Integrated the ExchangeRate-API to fetch real-time currency exchange rates.

### **Walestechng, Lagos – I.T Operator**

*Jan 2023 – Jan 2024*

- Provided technical support to staff, assisting with hardware and software issues to improve user experience and operational efficiency.
- Implemented routine maintenance schedules and updates for software applications, ensuring compliance with security protocols and best practices.
- Conducted repairs and troubleshooting of IT equipment, resolving issues promptly to minimize downtime and enhance productivity.

### **WholesaleToys, Lagos – Front-end web Developer**

*Jun 2022 – Jan 2023*

#### [Multi-goods Calculator](#) [WholesaleToys](#)

- Developed a web-based application for managing inventory and generating PDF reports using JavaScript, HTML, and CSS. The software allows users to input item details, calculate total volume and price, and export results as PDFs.
- Improved inventory management efficiency by 30% through streamlined data entry and calculations.
- Utilized libraries like jsPDF and html2canvas for PDF generation, enhancing reporting capabilities.
- Oversaw regular updates and maintenance of the company's WordPress website to enhance functionality and security.

## **Education**

**Lagos State University, Lagos, Nigeria – B.Sc**

*Jan 2015 – Jun 2022*

**Electronic and Computer Engineering – Second Class Lower**

## **CERTIFICATION**

### **D1gital Fortress / WAVE**

- Web Development and Employability Skills Training  
Certification Number: WAVESTC605
